GOLD .- Harry E. Gray, formerly of West Glover, Vt., now manager for Doe, Sullivan, & Co., Boston, and T. H. Kingston, of Somerville, Mass., have interested themelves in a mining proposition in castern Oregon. They are selling a small amount of stock at 50 cents per share, par value \$1.00. This mine has been examined by two practical mining engineers, one of hem being H. J. Jory, U. S. deputy mireral surveyor of Oregon, and both agree that it/will pay at least 30 per cent. dividends on the capitalization. This property is of reat merit and a 10 per cent. dividend is guaranteed. A sum equal to this amount will be deposited in a local bank subject to subscriber's order. This is a hydraulic old mine with enormous reserves of gold be aring gravels. Life of the mine is estima ted at 100 years. An absolutely safe inrestment that will pay dividends as long as you live. We know of nothing that will equal it. The mine has already profuced over \$450,000. Dividends will be paid this year. We consider an investment n this property as safe as a government ond, and ten times as remunerative. his is not a stock selling scheme but a horoughly legitimate business proposi-W. H. Hazel and T. Several of the members of the Odd Fellows Lodge in this village went to Newport last Saturday evening and visited the lodge there. There was a large delegation present from the lodge in St. Johnsbury and the degree was conferred by the members of that lodge. All enjoyed the occasion.

Beginning Monday evening, June 22, the Harris-Meyer Dramatic and Vaudeville Co. will open a week's engagement at Seaver's opera hall, and will present one of their high-class entertainments each evening. Reserved seats will be on sale at the usual place and ladies' tickets will be half price Monday evening.

Considerable rain has fallen throughout this section of the state during the past week and the people are rejoicing. The fires which have been raging in every section are giving no further trouble and the grass is looking much better. If the rain will continue for a little time it will be greatly appreciated.

Mrs. Mary Hill, who visited her brother, Agron Drown, last week, has some spectacles which are said to be over 150 years old. The frame was apparently made by a blacksmith as they show where they were welded. The spectacles were presented Mrs. Hill by a friend in whose family they had been kept for many years.

As of New Hampshire, and Mr. Henry B. the proceeds will apply on the parsonage fund a good patronage is solicited.

Mr. T. H. Kingston of Somerville, Mass., and Mr. W. H. Hazel of La Grande, Oregon, are in town for a few days. These gentlemen are associated with Mr. H. E. Gray of Boston, formerly of East Albany, in a mining proposition in the west and they hope to sell some stock in this section. Their advertisement will be found in our local advertising column.

Mr. W. S. May of this town and Miss Virgie Tibbetts, of Stoneham, Mass., were married at the Methodist parsonage Wednesday evening, June 10th, by Rev. W. C. Johnson. Mr. May has resided in this town all his life and is a young man held in high esteem by all. The bride has passed several summers here and has many friends who will be pleased to welcome her to Barton.

Mrs. Cordelia Cutler received a letter from her brother, Mr. Olin Skinner, of North Topeka, Kansas, last week, in which he states that the flood which invaded He commenced work this morning as book- that part of the country has done a great amount of damage. Mr. Skinner's house has been practically destroyed and Mr. H. J. Stannard and Dr. J. M. Blake his place of business badly damaged. He has fared no worse than many others. The damage at St. Louis and vicinity is also very severe.

We publish the following by request: Mrs. M. S. French has had an extension built on the back side of her house and had steel roof put on both verandas. She has had two coats of paint put on the inside of the house and two on the outside of barn and house, window sashes and blinds, and has attended to the buying of lumber, paint, and all material for the work, at seventy-eight years of age, and worked out all the funds herself.

All old soldiers and Relief Corps members are again reminded and requested not to forget the annual reunion of the Orleans County veterans at Newport Wednesday, June 17th - Bunker Hill anniversary. Preparations are being made for a high time and the officers of the association are particularly anxious that there shall be a large attendance of the old boys there to take it in. Never mind the weather, but

go. Money refunded if not satisfactory. Mrs. Betsey C. (Noyes) Fisk, widow of the late Seymour Fisk, died at her home Thursday afternoon, June 11, aged seventyfive years. Mrs. Fisk had been in failing health for some time, and during the last three months of her life was confined to the bed. She was a most estimable woman, a devoted wife and mother, and was beloved by all who knew her. She leaves four children, two sons and two daughters. The funeral was held Saturday afternoon at one o'clock, Rev. C. J. Brown officiating. The burial was in the village cemetery.

The preparations have been completed for a big time here July 4th. The races promise to be as exciting as usual while the special attractions will afford amusement for all. There will be a game of baseball commencing at 10 a. m, the contesting teams being the St. Johnsbury and Hardwick village teams. These are strong teams and a good game may be expected. There is to be a special train from the south which will arrive in time for the people to see the fun. Admission 25 cents, children under ten years, 15 cents. All

come and enjoy the day. A traveling man giving his name as White called at N. D. Martin's stable some days ago and engaged a team which was to be returned in a few days. As the team was not returned when expected Mr. Martin commenced to look the man up and found that he had "jumped" all of his bills in this section. He claimed to live in Maine and Mr. Martin started a man to Island Pond to see if he could locate him. While the man was on the road Mr. Martin was called over the telephone by a party in Haverhill, N. H., stating that White had just arrived there and wanted Mr. Martin should pay a man to take the team back to Barton. Mr. Martin decided not to have White

arrested and he was allowed to depart. ifornia, was in town for a short time last week. Mr. Keniston resided in Craftsbury at one time but moved west sixteen years ago. He has been in business in Los Angeles until within two years, handling physicians' supplies, etc. Two years ago he sold his business to his son, who is now running it in company with Mr. S. W. Root, a son of Deacon Root of Craftsbury. Mr. Keniston was in the east ten years ago, but only remained a short time. He now intends to remain for five or six weeks. He speaks very highly of California, its climate, beautiful scenery, etc. When he went to Los Angeles sixteen years ago he was in feeble health, but gained quite rap- | freshments were served.

The nineteenth annual meeting of the Vermont Woman's Suffrage Association was held at the M. E. church here Tuesday evening and Wednesday of last week. At the meeting held Tuesday evening Rev. A. M. Smith of West Concord presided. Rev. W. C. Johnson welcomed the association to Barton and Mrs. Louisa M. Slocum of Morrisville responded. Rev. Mr. Dixon was unable to be present and Rev. Mr. Smith gave a short address in his absence. Mr. Henry B. Blackwell of Boston, editor of the Woman's Journal gave a very interest-'ng address. On Wednesday morning the business meeting was held and the reports of the officers given and officers elected for the ensuing year. In the afternoon Mr. and Mrs. M. V. B. Knox both addressed the meeting. Their addresses were excellent and were well received. In the evening the speakers were Miss Mary Blackwell. These addresses were especially interesting and the speakers were followed very closely. The attendance was very

good throughout the time and the meet-

ing may be called a successful one. Mr. and Mrs. E. F. Dutton, who arrived home from California Wednesday, June 3, left Pasadena, where they had stopped for nineteen weeks, May 11. While at Pasadena they stopped with Mr. and Mrs. Aaron Twombly. Mr. Twombly formerly lived in this town and is well known here. During their stay in Pasadena Mr. and Mrs. Dutton visited Mrs. Maud (Mossman) Meyers of San Bernadino. Her husband is a physician and has built up a lucrative practice. They also visited H. J. Towne of Orange. Mr. Towne resided in this village some years ago, and conducted the grocery store now owned by E. B. Robinson. Mr. Towne has a small ranch and is very pleasantly located. After leaving Pasadena their first stop was with Rev. and Mrs. C. W. Stowell at Santa Barbara. Mr. and Mrs. Stowell are very nicely situated and are enjoying good health. Their next stop was at Monterey, where they visited Reuben Devereaux and family Mr. Devereaux is very busy at his trade, there being a large amount of carpenter work to be done there. Mr. Lyon, who married Mr. Devereaux's daughter, is in Monterey, also Harvey Bickford, formerly of Glover, who will be remembered here. They then proceeded to San Francisco, where they visited Mr. and Mrs. A. B. Ruggles, whom they found enjoying excellent health. From there they started on a 720 mile ride to Portland, Oregon. They travelled only through the day, thus having an opportunity to see the beautiful scenery along the route. They made a stop at the Shasta Springs and at other resorts along the line. At Portland they saw President Roosevelt and his party and kept along with his train for several days. At Seattle, Wash. they took the boat up the sound to Victoria, stopped there one day and then continued by boat to Vancouver. There they met Mr. and Mrs. F. T. Holder, of Yonkers, N. Y. Their next stop was at

cave which extends 200 feet into the mountains. The water boils out at a temperature of 90 degrees. Leaving Banff they proceeded on the long journey across the continent to Fort William on Lake Superior, where they took the boat across the lakes. After making the trip of 555 miles across Lakes Superior and Huron, and being on the water two days and nights, they arrived at Owen's Sound. From there they took the train for Toronto, and arrived home at an early date after having travelled 4,550 miles since leaving Pasadena. On the evening of May 4, while at Pasadena, Mr. Dutton was given a birthday party, it being his seventy-first birthday. Mr. and Mrs. Twombly invited several friends of Mr. and Mrs. Dutton, and the occasion was made a very pleasant one. While there Mr. Dutton saw a large number of the noted financiers of the country. Pasadena is noted for its millionaires, as there are thirty-one residing there. Mr. Dutton informs us that at Los Angeles, a city of 125,000 inhabitants, 4,600 buildings were erected in 1902, and the number of permits issued for building up to May 1st of the present year exceeded those of last year. California is certainly a beautiful place to spend the winter and residents there claim that summers are equally pleasant. However, it is hard to beat a good, old-fashioued Vermont summer but when it comes to winter it is not strange that the man who has a well filled purse seeks for a warmer climate.

There is one case of smallpox in this village. This case has been quarantined and all who have been exposed are also under quarantine. Every care is being taken to see that the disease does not spread.

B. W. Locke has gone to Center Harbor, N. H., and is employed clerking in a general merchandise store. Bert is a young man much esteemed here and his many friends were sorry to have him go away. It is remarkable what the effect of the rain has been upon the spirits of the farmers in this vicinity, and also on the growth of

vegetation during last week. Despondency has given place to hope and the brown fields have put on "living green." A very pleasant entertainment was given at the M. E. church last Tuesday evening by Messrs. Foss & Son, under the auspices of the Ladies' Aid society. The moving

pictures were exceedingly fine. A good

audience attended and the receipts netted the society eleven dollars. The meeting of the Grange which was held here Thursday evening was of unusual interest. Miss Florence Gillis read a paper on "Natural Curiosities," and Miss Winifred May Williams one on "How the Wil-

loughby Grange Spent Its Vacation." Both these papers were interesting.
A. C. Bingham, who works in the Lyon barber shop, received a telegram last week stating that his mother, who lives at Durham, N. H., was dead. He took the train and went home, but found his mother alive but very sick. It appears she had a sinking spell and her friends thought her dead and sent the dispatch. She revived, how-

pleasant home of Mrs. Austin, on the hill, was, for the third time within three years, the scene of a quiet wedding. In each case the contracting parties were from the same families. A few friends were gathered in the parlors which were neatly decked with flowers and ferns, when Rev. Joseph B. Lyman, in a rich and impressive service, united Dr. Guy M. Winslow and Miss Clara M. Austin. Time was wanting for elaborate preparation or display, even if desired, but the personality of the parties gave rich and ample interest to the occasion. The bride, the eldest daughter of the late Judge Austin, was daintily attired in a gown of white silk, a wreath of orange blossoms crowning her head. A graduate of St. Johnsbury academy and of Smith college, she combines rich culture with fine natural endowments. For some years a very successful teacher in our schools, active and efficient in church and social interests, of late she has filled a high position as an instructress in Lasell seminary. She is widely esteemed for her rich character, genial nature and modest worth. The groom, born in Brownington, is the youngest son of the late Dr. Winslow, but his home has been among us and we gladly claim him as our own. Those who have known him well from childhood can testify that few sweeter natures can be found among the male persuasion. A graduate of Tufts college, he completed a post graduate course, taking the degree of Ph. D. He has since pursued the study of medicine in connection with his work as professor of science of Lasell seminary, of which he is now the principal. Modest and unassuming, he has quietly and steadily worked his way toward the front. From his earliest youth he has been a universal favorite wherever he was known. Orleans county has no cause to blush when she sends out such young men. With high hopes and bright prospects, so far as human ken can discern, this truly mated pair took the afternoon train for Boston. Thursday they sailed on the steamer New England for a three months' tour in Europe.
